

Data Specs

Steel Alloy Extension (Pull) Spring with Open Hook

Extension springs or Pull Spring, are coiled attached by two components from both ends of the spring. When pulled apart the extension springs pull them back together again. The springs tension can be adapted depending on the applications load requirements. The spring end can have close or open hook.

SKU: [FTA1028](#)

Brief Data:

- Material: Alloy Steel.
- Outside Diameter: Ø20mm.
- Wire Diameter: Ø2mm.
- Free Length: 60mm (include hook).
- Ends Type: Open Hook.
- Weight: 17g.

Mechanical Dimension:

Unit: mm

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
