

Data Specs

50W~230VAC 936 Soldering Iron

High quality 936 ESD protection soldering iron, it is the industry standard work horse solder iron. Is an inexpensive, constant temperature soldering iron that you can stack to conserve valuable bench space. It will run for years without repairs. It's ESD safe for solder critical static sensitive applications. With replaceable solder tip and heating elements.

SKU: [ASS1025](#)

Brief Data:

- Supply Voltage: 220~230VAC/50Hz.
- Power Rating: 50W.
- 3-pins power plug with earth connection for leakage current safety protection and anti static.
- Improved PTC constant temperature heating elements.
- Non oxidize Stainless steel heater cover.
- Long life Soldering tips used copper-nickel alloy for corrosion resistance.
- High-temperature resistant, high insulation, soft-touch power cable.
- High temperature tolerance ceramic heating elements for long life, high efficiency, short rise time.
- Heating element life time: 2500 hours continuously.
- High temperature resistance silicon rubber hand grip.

Mechanical Dimension:

Long life Ceramic Heating Element

High temperature resistance silicon rubber hand grip

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
