

Heavy Duty De-Soldering Pump Solder Sucker

This solder sucker is designed to remove excess molten solder during de-soldering. If you need to rework the soldering on your printed circuit board (PCB), simply heat the solder using a soldering iron and then use this tool to suck it away without damaging the PCB. This solder sucker comes with an ergonomic grip for comfortable handling.

SKU: [ASS1214](#)

Brief Data:

- Plunger-style solder sucker.
- Hand operated.
- Overall length of 330 mm.
- Soft, non-slip handle.
- Piston with double oil seals to guarantee no air leakage.
- Replaceable nozzle.
- Anti-static design.
- Suction capability: 32cm-Hg.
- Weight: 85g.

Mechanical Dimension:

Unit: mm

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
