

## Data Specs

### Neodymium Super Strong Block Magnet

Super Strong Neodymium Magnet is one of the strongest and most powerful rare earth magnets. Neodymium magnets (Nd-Fe-B) are composed of neodymium, iron and few transition metals. These magnets are extremely STRONG for their small size. Neodymium magnets can be found in various shapes such as round, rings, blocks, discs etc.

***Cautious: HANDLE WITH CARE!!! This magnet is hard and brittle material. Because of its super strong pulling force, it may hit hard onto other magnetic objects and break if not handle correctly.***

**SKU:** [ASS1106](#)

#### **Brief Data:**

- Neodymium Iron Boron 'rare earth' material.
- Magnet Type: Bar.
- Dimensions (LxWxH): Refer to Table.
- Strongest magnet material available.
- Operating temp: 80°C max.
- High resistance to De-Magnetisation.
- Finishing: Nickel Plated.
- Anisotropic.
- Grade: N35 grade

**Mechanical Dimension:**

**Unit: mm**

SKU	Thickness (T)	Width (W)	Length (L)
<a href="#">ASS1106</a>	1.5	9	19
<a href="#">ASS1108</a>	4.0	19	29

## The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sold on Handsontec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
