

Cable Chain & Trunking- Flexible Slot

Cable trunking is used to both provide wiring protection and increase the organisation of multiple running cables. Cable protection is important within any workplace to ensure machines continue to operate efficiently, and also to adhere to health and safety requirements by ensuring cables are always kept organised. Cable trunking will help you to achieve both of these goals by eliminating any possible tripping hazards and keeping wires neat and easily identifiable.

SKU: [CAS1009](#)

Brief Data:

- Trunking/Chain Type: Cable Chain.
- Internal Width: 20mm.
- Internal Height: 15mm.
- Length: 1-meter.
- Color: Black
- Material: Nylon.
- Slot Type: Flexible.
- Snap-open configuration.
- Mounting bracket at both end.
- Minimum Bend Radius: 18mm.
- Fire Grade: Flame Retardant

Mechanical Dimension:

Unit: mm

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
