Data Specs

RJ45 Ethernet Network Connector Plug

The RJ45 modular plug is unshielded cable mount plug. RJ45 connectors are a standardised network interface for ethernet connections and are often used in LAN (Local Area Network) setups with UTP cabling. It is used to accept a wide range of data and communication cables for both, solid and stranded wires ranging between 28AWG to 24AWG. This has a 1-port 8P/8C and modular plug connector type.

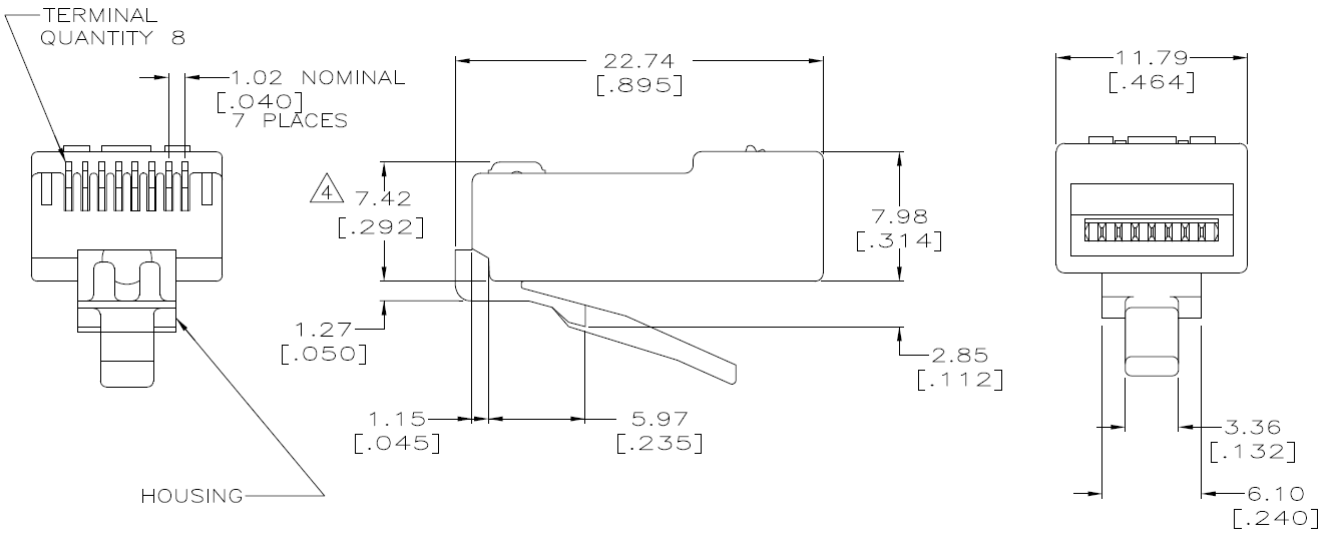
SKU: CON1252

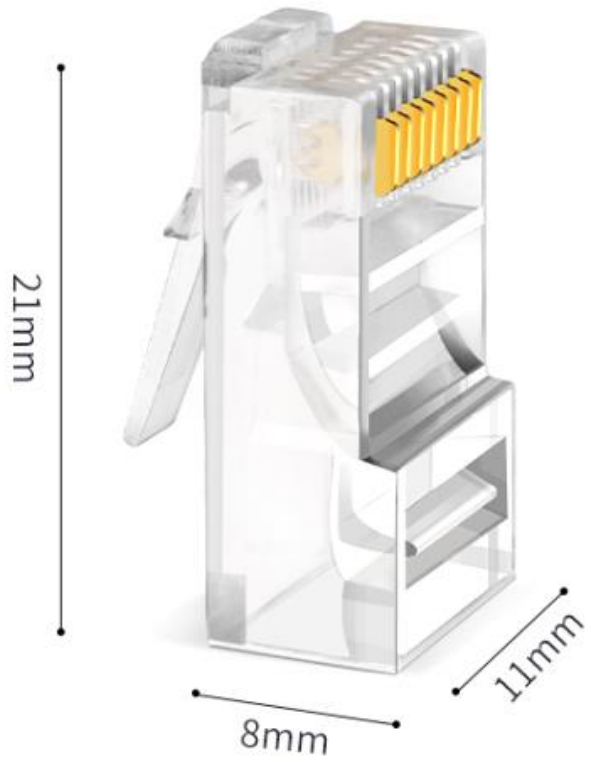
Brief Data:

- Gender: Male.
- Ethernet Connector Type: RJ45 Connector.
- Mounting Type: Cable Mount.
- Number of Ports: 1.
- Number of Ways: 8P.
- Shield Type: Unshielded.
- Orientation: Straight.
- Dimension: (8x11x21) mm.
- Contact Material: Phosphor Bronze.

Mechanical Dimension:

Unit: mm





HandsOn Technology provides a multimedia and interactive platform for everyone interested in electronics. From beginner to diehard, from student to lecturer. Information, education, inspiration and entertainment. Analog and digital, practical and theoretical; software and hardware.

open source hardware

HandsOn Technology support Open Source Hardware (OSHW) Development Platform.

The Face behind our product quality…

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.
Many vendors simply import and sell wihtout checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
