

Data Specs

All Metal Glass Cutter with Oil Dropper

All metal ergonomic non-slip handle, grip comfortable with an oil dropper. Mainly used for scoring and snapping glass sheets. This cutting tool used to make a shallow score in one surface of a piece of glass (normally a flat one) that is to be broken in two pieces, for example to fit a window. The scoring makes a split in the surface of the glass which encourages the glass to break along the score.

SKU: [HTA1050](#)

Bried Data:

- HTA Precision Hand Tool Series.
- Handle Material: Metal.
- Overall Length: 175cm.
- Glass Cutting Thickness: 5~15mm.
- Ergonomic Non-Slip Handle Design.
- Weight: 100gram.

Mechanical Dimension:

Unit: mm

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sold on Handsontec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
