

Brass Spacer/Sleeve Bearing ID:Ø16

Sleeve bearing facilitates motion between two components, absorbing friction and reducing vibration. They have a high load capacity, making them suitable for a range of heavy-duty applications. Compact, lightweight and easy to install, applications include electric motors, transmission shafts, spacer, lift and tilt devices for manufacturing and clevis joints for hydraulic cylinder pins.

SKU: [MCH1613](#)

Brief Data:

- Material: Copper Alloy.
- Oil Impregnated Self Lubricating.
- Inner Diameter: Ø16mm.
- Outer Diameter: Ø20mm.
- Wall Thickness: 2mm.
- Height: 16mm.
- For Shaft Diameter: Ø16mm.

Mechanical Dimension:

Unit: mm

| Model | ID | OD | H | SKU |
|-------------|-----|-----|----|---------|
| Ø(16-20)x16 | Ø16 | Ø20 | 16 | MCH1613 |

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
