

Passive Buzzer Module

The KY-006 Buzzer Module consists of a passive buzzer, it can generate tones between 1.5~2.5 kHz by switching it on and off at different frequencies either using delays or PWM. PWM-Signals of different frequencies can be used to create different sounds from the buzzer.

SKU: [MDU1126](#)

Brief Data:

- Oscillation Frequency: 1500~2500Hz.
- Connector Pitch: 2.54mm.
- Operation Voltage: 3~5V.
- Color: Black.
- Operating Temperature: -20 ~ +70°C.
- Dimension (L x W): 1.85 x 1.5 cm.

Pin Assignment:

Arduino Code Example:

This is an example program which will start an alarm signal on the buzzer via square wave voltage.

```
int buzzer = 8 ; // Declaration of the buzzer-output pin

void setup ()
{
  pinMode (buzzer, OUTPUT) ;// Initialization of the output pin.
}

void loop ()
{
  unsigned char i;
  while (1)
  {
    // The buzzer will be controlled by 2 different frequencies in this program.
    // The signal is a square wave signal.
    // The on and off of the buzzer will generate a sound which is nearly the sound
of the frequency.
    // The frequency will be defined from the time of the on and off period.

    //Frequency 1
    for (i = 0; i <80; i++)
    {
      digitalWrite (buzzer, HIGH) ;
      delay (1) ;
      digitalWrite (buzzer, LOW) ;
      delay (1) ;
    }

    //Frequency 2
    for (i = 0; i <100; i++)
    {
      digitalWrite (buzzer, HIGH) ;
      delay (2) ;
      digitalWrite (buzzer, LOW) ;
      delay (2) ;
    }
  }
}
```

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
