Plain 304 Stainless Steel Dome Nut

Dome nuts, sometimes called acorn nuts, are a versatile fastener used for aesthetic and practical reasons wherever a bare screw thread is a concern. Unlike using standard nut fixings, a dome nut completely covers the end of a screw. These domed nuts can be used to cap threaded bars or make sure a surface is snag-free.

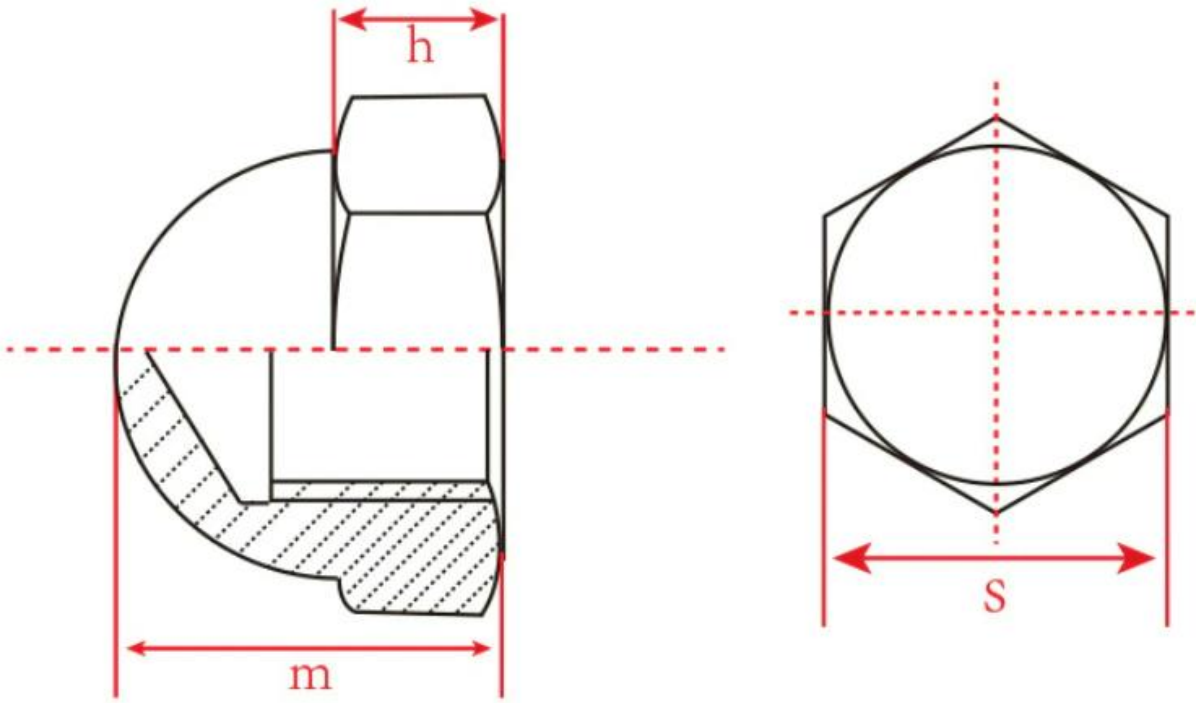
SKU: FAS1438

Brief Data:

- Product: Flange Hex Nut.
- Nut Type: Dome.
- Thread Size: M5.
- Width: 8mm.
- Overall Height: 10mm.
- Material: 304(A2-70) Stainless Steel.
- Finish: Plain.

Mechanical Dimension:

Unit: mm (±0.1mm)



Thread Size	Thread Pitch	m	h	s	SKU
M5	0.8	9.80	4.5	7.8	FAS1438

HandsOn Technology provides a multimedia and interactive platform for everyone interested in electronics. From beginner to diehard, from student to lecturer. Information, education, inspiration and entertainment. Analog and digital, practical and theoretical; software and hardware.

The Face behind our product quality…

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell wihtout checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
